

## **Through the Storm** *From Jesus with Love*

Remember the story when I calmed the sea? My disciples were panicking and thought that they would certainly perish. But when they looked to Me for help, I came to their rescue, in spite of the waves and the storm.

It's the same for you. There are many waves, and you may even see storms brewing on the horizon of your life, but if you look to Me and My wisdom to guide you, you will find the answers you need.

If you will ask Me to calm the storm, I will. Or I will show you how to weather the storm. Remember that I am in the boat with you.
